CPD Overview

Available CPD Material (3)

Specifying Healthcare Sanitary Assemblies

In this Specifying Healthcare Sanitary Assemblies CPD by Bushboard Washrooms, attendees will gain valuable insights in how to specify in line with Health Building Notes (HBN) regulations. The seminar will provide guidance on the key considerations when specifying healthcare sanitary assemblies, including mental health, the presentation will follow the HBN 00-10 Part C regulations to showcase the different sanitary assembly units and where and how to specify them. We will look at the different access options and materials available on the market and how to choose the most suitable sanitaryware and brassware. The seminar will also cover the benefits of opting for a pre-plumbed assembly and how they can ensure a precise and standardised build. Overall, this CPD provides a comprehensive and informative overview of the important considerations involved when specifying IPS for healthcare settings.

By the end of the CPD you should have a greater understanding of:

- The different style of units available on the market.
- The materials available for healthcare and how they comply to HBN 00-10.
- The benefits of specifying ready plumbed compared to a panel only or framed duct system.
- The different sanitary assembly units, where to specify them and with what sanitaryware and brassware.
- Mental Healthcare and the HBN 03-01 design requirements.

Washrooms for Education

In this CPD, attendees will gain valuable insights on how to specify washrooms in line with Department for Education guidelines, while also addressing key concerns such as privacy requirements for senior school toilets and how specifying suitable products supports the reduction of bullying and anti-social behaviour. The seminar also covers the benefits of pre-plumbed systems and how they can save time and money during installation. Additionally, accessibility and safety concerns are addressed, ensuring that all students have access to safe and functional washroom facilities. Over-all this CPD seminar provides a comprehensive and informative overview of the important considerations involved in specifying washrooms for educational settings. By the end of the CPD you should have a greater understanding of:

- How to specify materials suitable for school and in accordance with DfE expectations
- The specific cubicle height requirements by age group
- How to meet the privacy demands in senior schools, with specific advice on preventing bullying and anti-social behaviour in washrooms
- The general awareness of accessibility demands and safety features which should be specified
- The benefits of pre-plumbed access panelling systems and suitable specification of hand wash facilities.

Washroom Design and Specification

This seminar offers guidance on specifying washrooms. It covers the materials typically used in washrooms and specifically how to maximise their life expectancy by specifying the correct materials. It also looks at cubicle design aesthetics and functionality and the advantages of offsite manufacturing for washroom applications. This seminar covers the following topics.

- The key considerations you need to take into account when specifying washroom cubicles, ducting and vanities
- The different materials used in washroom applications and how to specify materials correctly
- The benefits of specifying ready plumbed modules compared to panel only and framed ducting and vanity options
- The relevant Building Regulations relating to washroom specification including Part M and The Equality Act 2010
- BREEAM and how to gain BREEAM credits when specifying sanitaryware, brassware and lockers
- BIM modules and using BIM for washroom specification

This CPD can be delivered to you live and remotely.

Material type:

Online Learning, Seminar

RIBA Core Curriculum:

Design, construction and technology
Legal, regulatory and statutory compliance

Knowledge level:

General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Structure

Internal walls, partitions > Cubicles, washroom panels

Fittings

Sanitary and bathroom fittings > Basins and sinks, vanity units

General products

Rigid sheets, boards > Decorative plastics and wood laminates
