Multi Functional Space

The seminar will provide an introduction to alternative methods available to sub-divide space. It will also fully explain the principles associated with this which includes: design, features and benefits, fixing methods, building interface, acoustic performance, acoustic meanings, examples of acoustic certification and what to be aware of, health and safety, case studies.

This presentation is available as a webinar, please contact cpd@style-partitions.co.uk to organise.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Multiple formats

Fully Automated Vertically Rising Acoustic Partition Systems (Moveable Walls)

This seminar is intended to give architects a better appreciation of how space can be acoustically divided and how this can impact on the surrounding area. It considers aspects of space planning and a unique new opportunity for dividing space, including stepped and inclined floors; structural and installation implications are also considered.

This presentation is available as a webinar, please contact cpd@style-partitions.co.uk to organise.
