CPD Overview

At the Bespoke Brick Company Ltd we have devised an exclusive range of innovative clay facing bricks which explore many different textures, tones and modules. Working closely with our production partners in Holland, Belgium, Spain, Portugal, Germany, Italy and the UK, we have been able to construct a collection so versatile, it adheres itself to both contemporary and traditional architecture and construction. This brochure takes you through our range by colour and production method, explaining how each brick is made, their technical properties and the sizes available.

All products in the portfolio are manufactured to the highest possible standards complying with BS EN-771-1. In 2018, The Bespoke Brick Co Ltd were accredited with ISO 14001. Each of our factories are proud to boast a dedicated approach to sustainability.

We supply our product range to a number of sectors in the UK construction market such as New Build Residential, Specification, Builders Merchants, Renovation, Commercial, Education, Leisure and Healthcare. At The Bespoke Brick Co Ltd, we believe brick is a beautiful, functional and timeless building solution. "Architecture starts when you carefully put two bricks together. There it begins."

Ludwig Mies van der Rohe
