Safe Access All Areas: An Essential Guide to Safe, Practical and Aesthetic Roof, Ceiling, Wall and Floor Access Solutions

This CPD aims to cover a full range of access products, providing a clear overview of managing access, fire, safety and security requirements in your building. Topics covered include purpose and reason for access, identifying and overcoming access changes, design considerations, weight loadings and configurations, and relevant regulations and standards. By the end of the CPD you should have a greater understanding of:

- Fire ratings and certification
- Smoke ventilation including access
- Safe operation
- Specification of roof and floor access areas
- Specification of wall and ceiling access areas

This CPD can be delivered to you live and remotely

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**
Health, safety and wellbeing

Knowledge level: General Awareness

Multiple formats

Safe Access All Areas: Floor Access

This seminar will explain the different design and specification considerations that need to be addressed when selecting a floor access cover for your project, from frequency of access to load bearing performance to the level of aesthetic required. Selecting the right access cover for the environment and the operational requirements of the building is key. This CPD will help you to understand the following topics:

- How to access building services concealed under any type of flooring finish quickly, safely and with minimum disruption, using floor access covers
- The different design considerations that need to be addressed when selecting a floor access cover for your project
- How to select the right access cover for the environment and operational requirements of the building
- The different methods available to remove access covers safely and in line with legislative requirements

This CPD can be delivered to you live and remotely

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**
